FILE HEADING

Revision of the Normal Schools in the State

From

The D.P. of Edn

No 12509/650 Dated 23 3 14 Received 3 4 14

Diary No 5548	Enclo 6 Spare Copies -	Serial No 1

BRIEF ABSTRACT OF LETTER

Submits proposals for converting the Normal School, Mysore, into a Girl Training College, for improving the Normal Schools at Kolar & Shimoga, & for opening a new normal School at Tumkur

NOTES AND ORDERS

It was usual till now to depute two select graduates to the Teachers College at Saidapet for the L.T. Course It is stated that last year the selected graduates could get no admission at Saidapet and that this year the Principal

GPB—85 000—1 6 12

Serial No

of the College can hold out no promise
Under these circumstances the DI of Edn
recommends the conversion of the Normal
School, Nagpur, into a Girl Training College
by adding an add[l] English Training class
for graduate teachers The course of
training is to be similar to the course of
the Teachers' College Saidapet, and it is
contemplated to obtain subsequently the
affiliation of the proposed College to the
Madras Univ[y] for the L T Degree
2 To make special provn for the
teaching of the optional groups of subjects
(1) Mathematics (2) Physical Science, (3) Natural
Science, (4) History + Geography + (5) two
languages other than English, five honorary
of Rs 250 each are recommended The
lecturers for these subjects are to be selected
from the staff of the Central and Maha-
raja's Colleges
3 Allowances of Rs 40 or Rs 30 are
proposed for the appointment of substitutes
in the place of graduate teachers selected
for training, according as the substitutes
are also graduates or have merely gone
through the B A course
4 The attn stipends for candidates

NOTE—Contn sheet

undergoing training in the existing Elementary English training classes are also proposed to be revised —

Present-	Proposed
Rs	Rs
3 on 15 each	5 on 20 each
5 on 12 "	10 on 15 "
12 on 10 "	20 on 10 "
+ 10 on 5 " (for private students)	5 on 10 " (for private students)

and the only those that have passed either the Matriculation or the School final Exn are to be admitted into the Elementary English Training class the no + their stipends is also * increased

5 It is also proposed to abolish the Hindustani training in the Normal schools at Kolar & Shimoga and to concentrate all Hindustani training in the Institution at Mysore, and a greater no of Kannada teachers are to be trained in the Schools at Kolar & Shimoga

6 A new Normal School is to be opened at Tumkur

7 The practising ~~class~~ Anglo Vernacular and Anglo Hindustani schools at Mysore are also proposed to be revised

8 The total additional cost involved in the proposals of the Dy is —

in certain selected localities but the Finc Deptt have recommended only Rs 25000 for the latter purpose, thus the total recurring expre would be Rs 14, 12000 Rs

(21) The starting of a Training College does not seem to have been contemplated in the Triennial Forecast where a sum of Rs 1, 25, 000 has been provided for improving the pay of schoolmasters of Colleges, High schools & V schools &c. It is therefore not clear whether the grant of so large a sum as Rs 141 355 for starting a Training College will not necessitate the curtailment of other educational programmes. As the triennial ~~forecast for orders~~ forecast stands at present it is possible to spare this sum from the ~~grand total~~ total grants admissible to the Edn Deptt which, in any case, cannot exceed Rs 16 60 lakhs per annum

Subd for orders

terms, similar teachers in British Indian provinces are allowed to go up for training to a training college? I doubt whether all the 456 ie 536-80 teachers need be sent on full pay for this purpose. In the file regarding the increase of pay to these teachers I have suggested that the best way of giving such increase would be to rule that a teacher who passes out of a training class would get a personal allowance. If that is done it will be partly the interest of the teacher himself to undergo the training course & in the majority of cases only half pay need be given. As by far the greater part of the increased cost now proposed viz Rs 23820 out of Rs 38355 (recurring part of Rs 41355) is on account of these stipends or substitute allowances, any step to reduce the aggregate allowance of the teacher under training & offer the substitute by a regular rule will be of great advantage from the financial point of view.

(27) I regret to say that in the matter of pay I have to differ from the Financial Secretary. Even as matters the orders of Public Instruction affect the salaries and travelling allowances of teachers, male training and in Mysore also the Inspector General may be unfettered with similar discretion In any case, I am of opinion that there should be money provided to the extent of the full salaries of the teachers Any attempt at saving in this direction would be detrimental to the interests of normal training The present system of paying the teachers

a portion of their pay in addition to the stipends has caused much confusion and endless correspondence and my proposal is to do away with the stipends altogether in the case of teachers on fresh employment As I have said above, I have however that the Inspector-General may have discretion to reduce the pay to some extent, if such a course in the circumstances of a case is deemed desirable (28) I am also not in favour of granting any personal allowance to teachers who have undergone normal training As far as I have been able to know the teachers, the majority of them are perfectly willing to undergo training on their own pay in the hope of getting promotion when vacancies occur in the future It is to satisfy them in this respect that I have already proposed a system of grades in my proposal as

The conditions have been frequently changed and the practice in Bengal now is to allow full pay to the man under training and three-fourths of the pay of the appt to the substitute both at the discretion of the Director who can reduce the amount in either case. In Madras it is yet a combination of half-pay & stipend for the teacher in training

1293

the other half being available for the Lower Courses. In view of these rates the proposals of the DC are not unreasonable.

I should venture to suggest however that there should be some incentive to the teacher under training finishing his course as quickly as possible. With full pay drawn all the time what will be the incentive? I would suggest ¾ pay to the man on training ¾ pay to the Lower Courses and a personal allowance to the teacher as soon as he passes out & rejoins his post. If this view is adopted — of course with discretion to the DC to reduce the amounts in any case — the cost of the scheme will be somewhat reduced.

In other respects the DC's proposals may be sanctioned.

The course lasts for a particular period of time & the teacher under training has no voice in forcing the completion of the training.

Final Note by the First ~~Councillor~~ Member

Subject — Revision of the Normal Schools in the State

---

49 The Inspector-General of Education has submitted proposals to extend normal education and raise its -- standard The expansion of primary and Secondary Fducation in the State has created a need for the supply of trained teachers in larger numbers than at present to primary and Secondary Schools The Inspector-General has also brought to notice that last year the students selected from the State for the L T Course could not get admission to the Teachers' College at Saidapet and that this year the principal of the College has in reply to a communication stated that he cannot hold out any promise It has this become necessary to devise in -dependent measures for the training of High School -- Teachers also

50 The Inspector General accordingly recommends the conversion of the Normal School at Mysore into a Govern

ment

17

ment Training College by adding an additional English Training Class for graduate teachers A Principal has to be appointed on a pay of Rs 350/- with a Vice Principal on Rs 200-20-300 and a First Assistant Master on Rs 150/-, and some other minor changes are proposed The existing Normal Schools at Kolar and Shimoga are to be improved and a new Normal School opened at Tumkur The course of training in the proposed College is to be similar to the course of the Teachers' College Saidapet and it is in contemplation to obtain, subsequently, the affiliation of the proposed College to the Madras University for the L T Degree Five honoraria of Rs 250/- each are recommended with a view to make special provision for the teaching of the optional groups of subjects, (1) Mathematics (2) Physical Science, (3) Natural Science (4) History and Geography, (5) Two languages other than English the lecturers for these subjects being selected from the staff of the Central and Maharaja's Colleges The Hindustani Sections in the Normal Schools at Kolar and Shimoga are to be removed as the number of pupils is insignificant and all Hindustani training will be concentrated in the Training

College

College at Mysore Provision is also made for a larger number of Kannada Teachers being trained in the -- Schools at Kolar and Shimoga

(57) The cost of the whole scheme over and above the present expenditure of Rs 55 808/- per annum is estimated at Rs 41,355/-, of which a sum of Rs 3 000/- is non-recurring, as detailed in the accompanying Draft order

(58) The Financial Secretary who was consulted is of opinion that the Inspector General's proposals may be sanctioned as recommended except in the matter of -- allowances to teachers under training which he says may be fixed at three-fourths of the pay of the teache under training, three-fourths pay being granted to the locum tenens and a personal allowance to the teacher as soon as he passes out and rejoins his post The Inspector General does not however agree to this suggestion and says that the present system of paying the teachers a portion of their pay in addition to the stipends has caused much confusion and useless correspondence and that his proposal is to do away with the stipends altogether in the case of teachers under Govern-

nent

ment employment, and to use the provision for stipends to pay allowances to substitutes for the teachers under training

(53) The adoption of the Inspector General's proposals will result in training 440 teachers each year as -- against 254 at present Even the number thus enlarged falls far short of the reasonable requirements of the Department The Education Committee considered that at least 500 teachers should be trained every year and the Conference considered that about 600 men should be trained In 1912, a short course of training was organised during the long vacation and about 120 men were benefited by it at a cost of about Rs 2,000/- This though not of course so efficacious as a full course, is much better than no training The Draft Order --- therefore suggests that this short course also should be organised, and a provision of Rs 3,000/- will be included in the Budget for this purpose

(54) There will be four places with Normal Institutions under the improved scheme - Mysore Tumkur Shimoga and Kolar The main difficulty against opening institutions is want of buildings and boarding facilities But

an

20

an attenpt should be made to start one or two more next year The Draft order suggests this also to the Inspector General

(55) The Inspector General's proposals with the additions made by me may be sanctioned

20 June 1914 H. Mangrumdayyo

Jpl

Submitted to His Highness

X
Draft for approval

(56) I submit herewith a Final Note by the First Member and a draft order sanctioning a revision of the Normal Schools in the State The extra cost involved in the proposals is Rs.41,355 of which a sum of Rs 3,000 will be non-recurring

Paper under disposal
X

(57) The need for the improvement of the existing Normal Schools and the opening of more schools for the training of teachers is fully explained in the letter of the Inspector General of Education and the note by the First Member As it is, even after strengthening the establishment, we shall be able to provide for the training of about 440 teachers in a year and provide for shorter courses for about 120 men The lack of trained teachers has greatly retarded the progress of education in the State

Pages 12-13 of the office note

(58) 3 The Financial Secretary has agreed to the scheme as a whole, In regard to the only point on which he differs, namely, the payment of stipends to teachers,

Pages 3-4 of Fl X

the First Member of Council has explained why it cannot be adopted

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

2
No 12509/650 Edn

Bangalore 23rd March *1914*

From Rao Bahadur
M SHAMA RAO Esq M A
Inspector General of Education in Mysore

To
C S Balasundaram Iyer Esq B A
Secretary to the Government of
His Highness the Maharaja of Mysore
Departments of Education & Agriculture
Bangalore

SIR

I have the honour to bring to the notice of Government the imperative need for increasing the number of Normal Schools in Mysore and for improving the existing ones There are at present three separate Normal Schools for males and one school for females as an adjunct of the Maharani's College Mysore The expansion of Primary and Secondary Education for which Government have been of late allotting liberal grants of money has made it necessary to arrange for the supply of a larger number of trained teachers for primary and Secondary Schools Further, it has become necessary to devise some independent means for the training of High School teachers Hitherto it was usual to depute two selected graduates to the Teachers' College at Saidapet for the L T Course Last year however the selected students could get no admission and this year in reply to a communication from me the Principal of the Teachers' College says that he can hold out no promise In these circumstances it is necessary as I said to arrange for training graduate teachers also in one of our local Normal Schools I may also state that the higher money value

which

which the new grant-in-aid Code attaches to trained teachers has led to a demand from the Managers of Aided Schools to provide training for their teachers in the Government Normal Schools The following proposals are therefore submitted for the sanction of Government with effect from the 1st June next -

In the Mysore Normal School there are at present 15 classes viz -

Pandits classes	2
Moulvi classes	2
Upper Secondary Kannada classes	2
do Hindustani classes	2
Lower Secondary Training Kannada	1
do Hindustani	1
Upper Secondary Training Kannada	1
do Hindustani	1
English Training class	1
Agricultural and Veterinary class	1
Rotation class	1
Total	15

It is proposed to start an additional English Training Class for graduate teachers and remodel and raise the standards of the existing Elementary English Training class by admitting only those who have at least passed the matriculation Examination or possess the School-Leaving Certificate The other classes which were revised and reconstituted in the previous official year as per Government Order No 7086-7/Edn 251-12-2 dated 5th March 1913 may remain as they are at present The total number of classes will thus be

be raised from 15 to 16

Next, it is proposed to abolish the Hindustani Training classes now attached to the Normal schools at Kolar and Shimoga and concentrate all training for Mahomedan students in the Normal School at Mysore In each of the Normal school at Kolar and Shimoga there are only ten Mahomedan teachers under training who can be easily accommodated in the Lower Secondary Training class of the Mysore Normal School ~~which~~ which also consists at present of only 10 students In the two Upper Secondary classes of the Mysore Normal School, there are at present sixty students of whom fourteen are Mahomedans and this number may be raised to 80, of whom sixteen may be Mahomedans Similarly the number of students in the Lower Secondary Training class which is now thirty including ten Mahomedans/in the Upper Secondary Training class may be raised to 70 of whom 30 will be Mahomedans there are at present 30, of whom 5 are Mahomedans and this number may be raised to 40 with the same number of Mahomedans The present English Training class consists of 30 students and this number may be raised to 40 The strength of the other classes may remain as they are at present

The tabular statement given below exhibits clearly the existing and the proposed number of classes and students

	Classes		Strength	
	Existing	Proposed	Existing	Proposed
English Training class for graduates	Nil	1	Nil	6
Elementary English Training class	1	1	30	40
Vernacular Classes - General Education				
Kannada Pandits' classes	2	2	8	8
Hindustani Moulvis' classes	2	2	8	8
Upper Secondary classes Kannada	2	2	46	64
do Hindustani	2	2	14	16

14

	Classes		Strength	
	Existing	Proposed	Existing	Proposed
Vernacular Classes - Training				
Upper Secondary Training Classes Kannada	1	1	25	35
do Hindustani	1	1	5	5
Lower Secondary Training class Kannada	1	1	20	40
do Hindustani	1	1	10	30
Agricultural Training class	1	1	24	24
Rotation class	2 (Batches of 40 each)	2	80	80
			270	356

As regards the stipends the present rates are Rs 10 per month for the Pandits Moulvis and Agricultural Training classes and Rs 8 per month for the Upper Secondary Upper Secondary Training and the Lower Secondary Training classes There are also ten stipends of Rs 5 each for private students joining the English Training class, and for those who act as substitutes to the Lasters selected for training in the English Training class who are allowed their own pay during the period of deputation, there are 3 allowances of Rs 15 each if the substitutes are F A 's or Intermediates or those that have completed the course 5 allowances of Rs 12 each, if matriculates or School Final men or those who have completed the course and Rs 10 if they have passed the Lower Secondary Examination in English For the substitutes to the graduate teachers selected for training, allowances of Rs 40 each per month in case they are also graduates will be needed or Rs 30 if the substitutes have gone through the B A Course From experience it is found however that F A 's or Intermediates and Matriculates or School Final men are not readily procurable on

the

the allowances of Rs 15 and 12 respectively now sanctioned for substitutes to the teachers selected for training in the English Training class and in their case it is necessary to raise the allowances to Rs 20 and 15 respectively

Again the stipends of Rs 5 have not attracted private candidates who have passed the Matriculation Examination or hold the School Leaving Certificate to undergo a course in the English Training class and the rate of stipend in their case may be raised to Rs 10

It has been found that it leads to much confusion if the teachers selected for training are allowed to draw their full emoluments partly in the shape of stipends and partly in the shape of pay It appears to be simple to allow the masters selected each to draw his full pay during the period of training, unless a reduction is made by the Inspector -General for special reasons and regard all the stipends as allowances to the substitutes, as is done in the case of teachers of the English Training class

A statement showing the present number of teachers under training and the proposed number to be trained in the different Training Institutions and the present amount paid as stipends to teachers and as allowances to substitutes and the proposed allowances to be paid to substitutes to be employed in the place of teachers deputed for training in the different institutions is herein enclosed

S T A F F

The number of classes as mentioned above will be raised from 15 to 16 and at the rate of 30 hours per week per class, the total number of working hours for all the 16 classes will be 480 hours Generally between 20 and 22 hours may be taken as the average number of working hours

for

for a teacher As a matter of fact however the number of working hours for a teacher will be considerably more as no account has been taken of a vacancy remaining unfilled on account of temporary causes or on account of those going on leave or who may be absent otherwise According to this calculation the number of masters needed will be 20 for general instruction, there being a few special masters for special subjects At present there are 18 regular masters imparting general instruction 1 Agricultural Lecturer 1 Music Master 1 Art Instructor 1 Drawing Master 1 Veterinarian 1 Drill Instructor 1 Singing Master and 1 Magic Lantern Demonstrator There are also 2 clerks and 6 menials I propose that the Head Master of the Normal School Mysore which may hereafter be called the Mysore Training College may be designated Principal and may be given Rs 350, so that it may be easy when necessary to send a High School Head Master of reputation as the head of this institution The First Assistant whose work along with much of the work of the Principal will be among the Higher Training classes for graduates and others may be designated Vice Principal and be placed in the grade 200-20-300 The others may be graded as below -

1	First Assistant Master	Rs 150
1	Assistant Master	75-10-125
2	Do	50-4-70
2	Do	50
2	Do	45-60
4	Do	30-45
2	Do	40
2	Do	30
2	Do	20-30
1	Music graduate teacher	50-4-70
1	Agricultural Lecturer	75-10-125

1	First Art Instructor	50-4-70
1	2nd Do	50
1	Veterinarian	30-2-40
1	Drill Instructor	20
1	Singing Master	15
1	Magic Lantern Demonstrator	20

On account of the increase in clerical work an extra clerk will be needed raising the number from 2 to 3 and of these three the first clerk may be given Rs 25 the 2nd 20 and the 3rd Rs 15

Among the menials the first peon's pay may be raised from Rs 8 to 9 and he may be called the Head peon and the second peon's pay may be fixed at Rs 8 and that of the third peon at Rs 7

As the course for the Normal Training of graduate teachers will be similar to the course adopted in the Madras Teachers' College and will be formulated with a view subsequently to obtain affiliation to the Madras University if necessary for the L T Degree special provision has to be made for the teaching of the optional groups of subjects (A) Mathematics (B) Physical Science (C) Natural Science and (D) History and Geography (E) two languages other than English A period of two months will be needed for lecturir on each of these groups of subjects and for this purpose I propose that five honoraria of Rs 250 each may be sanctioned The selection of lecturers for these special subjects will be made from among the Professors and Assistant Professors in the Central and Maharaja's Colleges Such of the graduate teachers as select Mathematics or Physical or Natural Science as their optional subjects may be allowed to stop at Bangalore for two months These graduates under training will

will be allowed to give practising lessons in the Government High School at Mysore for a few hours a week

The contingent grant may be raised from Rs 30 to 40 per month and the Library grant from Rs 250 to Rs 400 a year with an initial lumpsum provision of Rs 2 000 for the formation of a good Library of Educational books A statement showing the present and the proposed scale of the establishment of the Mysore Training College is appended

PRACTISING SCHOOLS

The Anglo-Vernacular Practising School has recently been remodelled on a more efficient basis For the Kannada Branch which combines English instruction also there are at present a Head Master on Rs 50 an Assistant on Rs 40 one on 30 1 on (20-1-25) 3 on (15-1-20) and 4 on (12-1-15) There are also 3 menials on Rs 7 each The contingent grant is Rs 12 per mensem As classes for students appearing for the Kannada Lower Secondary Examination have also to be maintained 3 additional masters are needed one on Rs 30 1 on 20-1-25 and 1 on 15-1-20 The other items may remain as they are The enclosed statement shows the present and the proposed scale of the establishment

The Anglo-Hindustani School Mysore which serves as a Practising School for the Hindustani Teachers also requires to be remodelled on a better basis There are at present 1 Head Master on Rs 40 1 Assistant Master on Rs 25 3 on 20 2 on 15 1 on 12 and 7 on 10 each There are 3 menials 1 on Rs 7 1 on 6 and 1 on 4 The contingent grant is Rs 3 per month and there is also a house rent of Rs 49-8-0 per month The Head Master may in the future be placed in the grade 50-4-70, so that a Mahomedan graduate may be employed The others may be graded as follows -

1 on 40 1 on 30 1 on 20-1-25 3 on 15-1-20 4 on 12-1-15 4 on 10

A statement showing the present and proposed scale of establishment

9

establishment is enclosed The contingent grant may be raised to Rs 4 per month and the house rent to Rs 60 per month as extra accommodation is urgently needed and can only be had by paying extra rent I may add here that the revision of the Anglo-~~Xxxxxx~~ Hindustani School has already been proposed in my letter No 914/563 dated 23rd Jan 14 addressed to the Comptroller but it may be omitted there as noted in the margin and

sanctioned in this connection as proposed now
1 on Rs 50 1 on 40 1 on 30 1 on 20-1-25 3 on 15-1-20 4 on 12-1-15 and 4 on 10

The Agricultural Farm attached to the Normal School at Mysore needs to be conducted on more improved lines and on this subject I am in communication with Dr Coleman and shall submit separate proposals to Government for its improvement

DISTRICT NORMAL SCHOOLS

Now, taking the District Normal Schools at Kolar and Shimoga respectively, the Mahomedan students of 10 each may as already stated all be concentrated in the Mysore Training College and the number of Kannada Masters to be trained raised from 20 to 60 in each of these District Schools The two Hindustani Masters on Rs 25 each will be absorbed in the first vacancies that arise and till then may be regarded as supernumeraries I may state taking the probabilities that they are not likely to continue long as supernumeraries even if they cannot at once be absorbed in the sanctioned cadre As regards the two Head Masters it is found that they will not have enough work if they are only in charge of the Normal Schools Besides it is desirable always to have L T 's as Head Masters of District Normal Schools I therefore propose that each of these Head Masters who are now in the grade 40-50 may be placed in the grade 50-4-70 and may also be given charge of the Anglo-Vernacular Schools at the places mentioned

10

It is found undesirable to have only Kannada knowing Assistants for the Normal Schools as at present and a teacher knowing English preferably a graduate may be appointed on Rs 50 in place of each of these Kannada Assistants The subjects taught by these Assistants relate at present to school management school method organization &c which are more or less of a special nature and they require higher calibre and training on the part of those entrusted with their teaching The two Kannada Masters will like the Hindustani Masters referred to above be provided elsewhere at the first opportunity they in the meanwhile being treated as supernumeraries On account of the increase of the Normal pupils in each of these schools at Kolar and Shimoga from 20 to 60 an additional English-knowing teacher on Rs 30 is also needed The clerks attached to these Normal Schools now get from Rs 12 to 15 each As the work to be done is somewhat of a complicated nature and men of higher qualifications are needed the pay may be raised to Rs 15-1-20 The pay of the 2nd peon of the Kolar Normal School which is now Rs 5 may be raised to Rs 6 a month No change is necessary regarding the pay and allowances of the Drawing and Singing Masters and the Gymnastic Instructors The number of allowances to be given to the substitutes to the Masters under training may be raised from 20 to 60 in each of these institutions

Next I propose that a District Normal School should be opened at Tumkur similar to those at Kolar and Shimoga where 60 primary school teachers may be trained For this purpose a Head Master in the grade 50-4-70 who may also be in charge of the Anglo-Vernacular School a graduate Assistant on Rs 50 an English-knowing Assistant on Rs 30 and a Drawing Master on Rs 25 may be appointed 2 allowances of Rs 5 each per month are required for the singing

Master and the Drill Instructor A clerk on 15-1-20 2 peons on Rs 6 each and a scavenger on Rs 2 per month are also needed A contingent grant of Rs 10 per month Rs 50 annually for the Library and Rs 50 for furniture and apparatus may also be sanctioned

It is proposed to locate the Normal school in the building in which the Anglo-Hindustani School is at present held in Tumkur and the Anglo-Hindustani School removed to a rented building for which a rent of Rs 30 will be needed which may also be sanctioned A lumpsum provision of Rs 1000 for furniture and apparatus and books will also be needed A statement showing the present and proposed scale of establishment of the two existing District Normal Schools and the additional school to be opened at Tumkur is enclosed

Total Cost -- As per proposals now made, the total existing and the proposed cost of the schools referred to will stand under the different heads as shown in the accompanying statement the total increase per annum over the existing cost of Rs ~~55 808 4/5~~ 55808 2/5 being Rs ~~41,358 3/5~~ 41355 Proposals for the improvement of the Training classes for females in the Maharani's College have already been submitted to Government in my letter No 9037/459 dated 21st January 1914 submitting proposals for the reorganization of the Maharani's College Mysore

I have the honour to be

Sir

Your most obedient servant

H Ramachandra Rao

Inspector General

TNR

(Note Print he Inspector General's letter and its enclosures as annexure)

Order thereon No 12-13

EDN 358-13-2

Dated Bangalore, 1st ~~June~~ July 1914

The expansion of Primary and Secord ary Education in the State has created a need for the supply of trained teachers in larger numbers for Prirary and Secondar schools and the difficulty felt in securir admission for students from the State into Training Colleges outside the State ~~to the [illegible]~~ has made it necessary to make local arrangements ~~[illegible]~~ for the training of High school teachers The Government are accordingly pleased to san

sanction all the proposals of the Inspector General of Education, referred to in the preamble for the extension of Normal Education and raising its standard It is observed that under the proposed arrangements 440 teachers will be trained each year as against 254 at present

Necessary provision for the purpose will be included in the ~~budget~~ Education State Fund Budget for 1914-15

The number to be trained under the proposed ~~scheme~~ scheme is still insufficient for the needs of the Department The Inspector General will be requested to consider the advisability of having normal schools in at least two places more, and submit proposals therefor In the meanwhile, arrangements may be made to hold vacation classes giving short courses of training as was done in 1912 This arrangement though not so satisfactory as regular normal schools, will provide some useful training to about 200 teachers if the classes are held in instruction from a three

or

or four convenient centres A provision of
I 3000 will be made in the budget of 1914-1
to meet the expenditure on this scheme
